An act to amend Section 12140 of the Unemployment Insurance Code, relating to unemployment insurance.

LEGISLATIVE COUNSEL'S DIGEST

AB 2604, as introduced, Fong. Unemployment insurance: job creation experimental program.

Existing law requires the Employment Development Department to administer a specified job creation grant program intended to encourage voluntary participation by employers in the private sector, in the creation of permanent employment opportunities, as provided. Existing law provides that nothing in those provisions shall be construed to impose upon any employer who is participating in a job creation experimental program any requirement beyond what is contained in other provisions of law with respect to which persons shall or may be hired by that employer to fill job vacancies created by the operation of the experimental program.

This bill would make various nonsubstantive, technical changes in the above provisions relating to the experimental job creation program.

Vote: majority. Appropriation: no. Fiscal committee: no.  
State-mandated local program: no.
